The guaranteed minimum interest rate is 2.00% per year.

The annuity purchase payment earns a guaranteed declared interest rate for the Initial Guarantee Term. After the Initial Guarantee Term expires, a new interest rate will be declared on each contract anniversary and will be guaranteed for one contract year. Interest will be credited daily at a rate that compounds over the course of one year to the annualized effective interest rate, assuming no withdrawals.

No guaranteed rate will be less than the Guaranteed Minimum Interest Rate stated in the contract. Pacific Life determines, at its discretion, annual interest rates in excess of the stated Guaranteed Minimum Interest Rate in the contract. All Initial Guarantee Terms may not be available at all times or in all states.

If a purchase payment received after issue causes the amount of the total purchase payments (minus withdrawals) to exceed the current breakpoint, the crediting rate may be increased.

Please refer to the the Contract Summary for more information.
